PROFILE

Computer Science undergraduate pursuing a B.Tech in Computer Science and Engineering alongside a B.Sc. in Data Science. Experienced in C/C++ programming with developing skills in Python, web technologies, databases, and Linux environments. Interested in cybersecurity and currently building foundational knowledge through Harvard's CS50's Introduction to Cybersecurity.

EDUCATION

Dibrugarh University Institute of Engineering and Technology (DUIET) **2025–2029**
B.Tech in Computer Science and Engineering *CGPA: 8.9/10*

IITM **May 2025–2029**
B.Sc. in Data Science *Online, Flexible Program*

ASSEB (Division II)
Class XII *76.8%*

SEBA
Class X *83%*

EXPERIENCE

EUREEKA Education and Services **July 2026**
Social Intern

- Designed promotional posters and created promotional and awareness videos for EUREEKA initiatives.
- Conducted questionnaire-based field surveys and collected primary data through interactions with local businesses.
- Supported promotional and on-ground activities as part of the organization's team.

PROJECTS & RESEARCH

Entrepreneur & Startup Community Platform — HACKSAGON

Finalist, IEEE Madhya Pradesh Section National Hackathon

- Developed a social-media-style platform for entrepreneurs and startup enthusiasts as part of the open-track Software domain.
- Contributed to the full application development using **Vite** and **Supabase**.

ECG/PPG Heartbeat Detection

Ongoing Research

- Working on a research study focused on heartbeat and QRS detection using ECG and PPG signals.
- Involved in literature review and collection and organization of relevant datasets.

Mathematics in Applied Research: A Thematic Review of Methods, Applications, and Emerging Frontiers

Co-author / Under Review

- Contributed extensively to literature research, manuscript development, revision, and addressing reviewer comments during the resubmission process.

TECHNICAL SKILLS

Programming	C, C++, Python (learning)
Web Development	HTML, CSS, JavaScript
Database	SQL, MySQL
Frameworks	Vite, Next.js
Tools	Git, GitHub, VS Code, Scilab
Operating Systems	Linux/Ubuntu, Kali Linux, Parrot OS
Core Concepts	Data Structures & Algorithms, Object-Oriented Programming, DBMS
Cybersecurity	CS50's Introduction to Cybersecurity; foundational security knowledge
Languages	English, Hindi, Assamese; Japanese (learning)
